"OUR COMMITMENT TO OUR CUSTOMER IS TO PROVIDE EQUIPMENT SOLUTIONS BASED ON THEIR EXACT NEEDS AND INSURING THE HIGHEST QUALITY, RELIABILITY AND SAFETY IN THE INDUSTRY."

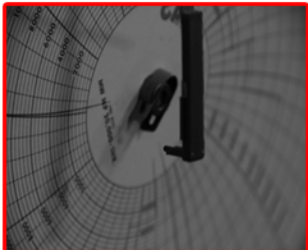

FRAC STACKS

We offer a variety of Frac Stack configurations as well as custom configurations. Our inventory of Frac valves range from 7 1/16" to 2 1/16" with pressures ranging from 5m to 15m.

Exact Valve Solutions also provides package services for Frac Stacks.

- Frac Stack Rig Up
- Torque and Test
- Pressure Testing to 15,000psi
- Flowback Services
- Field Greasing

TORQUE & TEST

Our units are Trailer mounted offering quick mobilization reduced cost. We employ personnel experienced in troubleshooting valves and BOPs so our personnel can actually perform repairs on site.

We can also provide all the equipment needed to test wellheads, stacks and BOPs including WECO adapters, Test Plugs, and Pump-in subs

FLOWBACK

We have 2" and 3" Dual Choke manifolds and experienced personnel for you flowback jobs. We have all of the equipment necessary from the Frac Stack to the open top tanks.

Whether its a high pressure screenout or a low pressure bleed off we are ready to do the job.

MIXING PLANTS

The unit is powered by a 185 hp John Deere capable of boosting 14 bpm and provides substantial chemical shearing capability. Our large blending tank has a 60 barrel capacity and small slug tank is a 30 barrel capacity

HYDRAULIC CATWALKS

After years of experience with Hydraulic Catwalks we designed our own model to include improved safety features and we engineered the units to be more reliable in the field. Our units are extremely mobile reducing transportation costs and Rig Up time. Available for Drilling Rigs, Workover Rigs and Snubbing Units.

BLOWOUT PREVENTERS

We have Several different sizes of Blowout Preventers to meet our customers needs. These include the time tested Cameron Type U in Doubles and Singles, Shaffer Annulars and the ultra compact Hydril Sentry 7 1/16" 5k Double BOP.

We also have skid mounted accumulators and trailer mounted Accumulators.

FIELD GREASING

Exact Valve Solutions has High Pressure Grease Units and Operators to meet any application. We supply the best High Temperature and Low Temperature grease for Frac Valves and Wellhead equipment depending on what the operators needs are.

We also have Grease and Grease pumps for pipeline valves.

RENTAL EQUIPMENT

We offer the following Rental Equipment:

- Frac Valves
- Choke Manifolds
- Adapter Spools
- Spacer & Riser Spools
- Double Studded Adapters
- Flow Crosses
- Flow Iron
- Adapter Flanges
- Blind & Cap Flanges
- BOPs
- Annulars
- Grease Units
- Accumulators
- Filter Pods
